

Cooperative Marine Turtle Tagging Program

Annual Report
to the Southeast Fisheries Science Center
National Marine Fisheries Service
Order Number 40-WC-NF-004295

April 2001

Karen A. Bjorndal, Peter J. Eliazar, and Alan B. Bolten

Fax: 352-392-9166
Email: accstr@zoo.ufl.edu

In April 1999, the management of the Cooperative Marine Turtle Tagging Program (CMTTP) was transferred from the Miami Laboratory of the Southeast Fisheries Science Center to the Archie Carr Center for Sea Turtle Research (ACCSTR) at the University of Florida. This report describes the activities and accomplishments of the CMTTP from 1 April 2000 to 31 March 2001.

Annual Activities of the CMTTP

1. We have maintained a web site for the CMTTP [<http://accstr.ufl.edu/cmttp.html>]. The web site includes instructions on how to obtain tags and applicators and all of the CMTTP documents:
CMTTP New Policy [request for payment and new tag return address and offer of reward]
CMTTP Requesting Tags and Data Policy
CMTTP Protocols for Handling, Tagging, and Measuring Marine Turtles
Recommendations for Activities Involving Brief Captivity with Non-Invasive or Minimally Invasive Procedures by L. H. Herbst and E. R. Jacobson

The web site also has the following two documents in Adobe Acrobat pdf format:

CMTTP Tag Request Form
CMTTP Tagging Data Form

2. We have continued this year to invest substantial time in cleaning up the computer files transferred to us. In particular, the FINDTAG and NEWTAG databases required significant effort. Many gaps in both databases have been filled as a result of substantial correspondence with CMTTP participants. As information became available or as information was found in the files, we were able to match the pit tag numbers with flipper tag numbers of individual turtles.
3. From 1 April 2000 through 31 March 2001, we purchased 6000 Inconel tags (style 681) and 50 applicators from National Band and Tag Company. The tags have a UF return address and offer of a reward.
4. From 1 April 2000 through 31 March 2001, we distributed a total of 6490 tags and 53 applicators (Table 1). We received all required permits and project descriptions from each of these programs.
5. From 1 April 2000 through 31 March 2001, we received a total of \$4640.70 in payment for tags and applicators. These funds have been deposited in the University of Florida Foundation / CMTTP account that we maintain to receive payments for tags and applicators.
6. Table 2 shows the responses that we have received from participants on the allowable use of tagging data by NMFS. If no "Allowable Use" category is checked by the CMTTP collaborator, we assume that these are "No additional use without permission" as stated in the CMTTP Requesting Tags and Data Policy.
7. From 1 April 2000 through 31 March 2001, we received recapture reports for 376 sea turtles. Data were entered into the NEWTAG database, original taggers of the turtles were notified, and the individual reporting the tag was sent tagging information on the turtle.
8. We continue to receive electronic tagging data files from some programs. These files have been converted to Access, and files from each locality for each project have been combined into one file.

We plan to review how to improve the quality of these files to lessen the work involved in managing CMTTP databases.

9. We reviewed individually all hard copy data sheets that were submitted without an electronic file and entered all recaptures into NEWTAG. All original tagging records were filed after their numbers were entered into FINDTAG. The number of tagging programs that still only submit hard copy data sheets is significant. We plan to review how to encourage these CMTTP collaborators to submit their data electronically to lessen the work involved in managing CMTTP databases.

Table 1. Number of tags and applicators distributed from 1 April 2000 through 31 March 2001 with cost-recovery information. See Table 3 for organization codes.

Issue Date	Organization	Number of Tags	Number of Applicators	Cost	No funds available	Check Promised	Check Received
4/12/00	HHMP	90	0	\$63	replaced		
4/13/00	SABM		1	\$18			X
4/13/00	GDNR	200	0	\$140			X
